Cyrus NFL Props Report - 2026 Week 7

Track record (2026 Week 6). Graded picks only; voids (player did not play) are excluded. RB rows have no book price, so judge them by hit rate against the expected rate.

Market	Tier	Graded	Won	Lost	Void	Hit rate	Expected	Units (1/pick)
QB YDS	RECHECK	1	0	1	0	0%	56%	-1.00

Run 2026-10-25 04:58 PM CT. Data: nflverse schedules, player stats and injury report (350 injury rows this week); book lines from public odds pages at run time. Model is market-informed and not yet backtested against prop lines: treat picks as small, flat-stake leans. Check inactives about 90 minutes before kickoff.

RB anytime touchdown (tier by chance: 70%+ Best Bet, 60-70% Bet; bet only if the book pays longer than fair odds)
